

Manufacturer's Certification Statement

Pertaining to the Federal Tax Credits for Consumer Energy Efficiency of 2010

Grape Solar, Inc. certifies that the solar panels are designed primarily as electricity generators and are eligible units to qualify for the federal tax credit for existing homes under the Federal Tax Credits for Consumer Energy Efficiency of 2010. This certification relates to the credit for Solar Panels (Photovoltaic Systems) whereby Photovoltaic systems must provide electricity for the residence, and must meet applicable fire and electrical code requirements.

Tax credits are available at 30% of the cost, with no upper limit, through 2016 (for existing homes & new construction). PV systems must provide electricity for the residence, and must meet applicable fire and electrical code requirements.

Grape Solar, Inc. does not provide architectural, inspection, or engineering services and disclaims any responsibility with respect thereto. Grape Solar, Inc. does not guarantee, warrant, or attempt to determine whether building structure, design, or the use of materials therein complies with any applicable codes, standards, or guidelines. The user maintains the full and complete responsibility to comply with all codes, laws, and regulations applicable to the safe and proper use, handling, and installation of the products and should consult with an electrician for all product installation related questions.

Under penalties of perjury, I declare that I have examined this certification statement, and to the best of my knowledge and belief, the facts presented are true, correct, and complete.
